SECTION 2, SUBJECT INDEX

This subject index follows the format of the National Library of Medicine's *Index Medicus*. Some additional headings have been added.

Entries take this form: Volume and number, author, first page of article. For example, 5:2 Robbins (183) refers to Thomas Robbins' "Characteristics of Amphetamine Addicts," found in issue 2 of this volume on p. 183. From this section of the index, reference may be made to Section 1 for the full title and authors of a particular article.

All original contributions to the *International Journal of the Addictions*, Volume 5, are indexed. Book reviews, abstracts, and communications have not been included.
